- Eternal dimensions (No change in height)
- Mounting positions of mounting bolts (No interchangeability with existing product)
- Outer diameter and mounting position of mounting locating pin (No interchangeability with existing product)
- Port positions
- Number of auto switch installation slots : from 4 parts (2 surfaces) to 6 parts (3 surfaces)

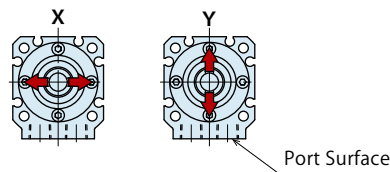

【Body Size 050 only】

- Outer diameter : from $\phi 37g8$ to $\phi 35g8$

※Please refer to attached 'Changes in Dimensions' for further details.

- Gripper expanding direction of Function C : Cut (for one-direction locating) can be selected.

	Model No.	Gripper Expanding Direction
Existing Model	SWP□□□1-C	Perpendicular to the port surface
After Changing Model No.	SWP□□□2-CX	Parallel to the port surface
	SWP□□□2-CY	Perpendicular to the port surface

- Additional lineup for Function M : Pin Head Floating (No Locating Function) :

SWP0502-M-090-□ (Workpiece hole diameter $\phi 9$)

3. Schedule

It is going to be changed sequentially from October 2024.※

(The time may slightly vary depending on stock status.)

Old and new items will not be mixed in one same order.

※ Regarding supplying to overseas, the update timing is different, depending on overseas office or dealers.

Please contact our salesperson for further inquiries.

Please consider the revised locating pin clamp in future designs.

Yours Sincerely
KOSMEK LTD.
